Show Your Expertise

Returning to Las Vegas in 2009, POWER-GEN International is the #1 platform for presenting ideas, solutions and technologies to the power generation industry. Featuring a broad range of topics from the latest trends and strategies for specific market sectors, no other event attracts more industry leaders for three days of information exchange and education.

Share your insight with more than 18,000 colleagues and submit an abstract today for consideration. The process is simple and the benefits are significant:

- Receive widespread recognition from your industry peers
- Gain valuable information and learn about new solutions from other speakers
- Profit from establishing important new contacts critical to growing your business or enhancing your profession

Attendees of POWER-GEN International include:
- Electric utilities
- Independent power producers
- Unregulated generation subsidiaries
- Merchant plants
- Co-generation and self-generators
- Industrial facilities
- Project development companies
- Architect/engineering firms
- Financial/legal firms
- OEMs
- And more

DEADLINE TO SUBMIT AN ABSTRACT: March 20, 2009
Submit online at www.power-gen.com

DEADLINE TO SUBMIT AN ABSTRACT: March 20, 2009
Submit online at www.power-gen.com
Step-by-Step Guide for Developing and Submitting an Abstract:

Step 1: Choose an issue/technology/project that is relevant to the power generation industry either from the list of suggestions at left, or propose your own industry-related topic.

Step 2: Choose the presentation method – Topic Presentation or Panel Discussion

* * *

SAMPLE PRESENTATION GUIDELINES

- Estimated presentation length: 15-22 minutes, including Q & A time.
- Summaries of a manuscript to conference management is required in advance of POWER-GEN International.
- Submit a proposal for an abstract presentation, which includes a discussion of the exhibit hall conference, new technologies, exhibit hall sessions and new copy of the CD-ROM.

Panel Discussion Guidelines

- Panel submissions must contain context for a complete two-hour panel discussion, including confirmed panelists.
- Panel sessions are a less structured environment and allow conference attendees to interact with the panelists.
- Panelists are not required to submit a manuscript, but each panelist is encouraged to develop a short 5-10 minute presentation.
- Panelists must agree to participate in thePOWER-GEN International conference proceedings.
- Panelists are not required to submit a manuscript, but each panelist is encouraged to develop a short 10-15 minute presentation.
- Panelists must agree to participate in the POWER-GEN International conference proceedings.
- Panelists are not required to submit a manuscript, but each panelist is encouraged to develop a short 15-20 minute presentation.

Step 3: Develop a well-crafted, concise synopsis of your proposed presentation topic that addresses all key points of issue/project/technology, approximately 200-400 words.

Step 4: ONLINE SUBMISSION: Abstracts are now submitted online at www.power-gen.com. Click on Online Abstract Submissions located under Conference.

Please read all requirements above, abstract submission process will not be completed without including all required information.

Determine whether the topic has been previously presented and if so, when and at what conference.

Submit the completed abstract via our online form. Please print this online submission form and mail to:

**ONLINE ABSTRACT SUBMISSION**
